Stormcast Eternals

The glorious forces of Sigmar, pure and unbowed warriors dedicated to scouring the Mortal Realms of Chaos, Destruction and Death. Each of the Stormcast Eternals miniatures in the box is an Easy to Build push-fit model, supplied on gold plastic sprues and requiring no glue to assemble:

- 3 Castigators and a loyal Gryph-hound – support troops who lay down withering ranged attacks with their thunderhead greatbows;
- 3 Sequitors – frontline infantry who bring the fight to the fore with stormsmite mauls and soulshields – their leader, the Sequitor-Prime, carries a spirit flask.

Nighthaunt

Nagash's seemingly-endless hordes of risen undead, bitter and lethal toward all who still possess the gift of life. Each of the Nighthaunt miniatures in the box is an Easy to Build push-fit model, supplied on turquoise plastic sprues and requiring no glue to assemble:

- 4 Glaivewraith Stalkers: unstoppable gheists drifting inexorably towards their prey, each attacks with a 2-handed hunter's glaive;
- 4 Myrmourn Banshees: hollow and horrifying, they drift and swoop weightlessly clutching their chill daggers.
