Opis produktu

The Teratic Cohorts form the vanguard of the Ossiarch Bonereapers scouring the Gnarlwood, seeking to secure the treasures of Talaxis in the name of the Great Necromancer. Each cursed warrior bears a hideous form purpose-built for tracking and they will stop at nothing to see the will of Nagash realised.

This multipart plastic kit builds a full Teratic Cohorts warband, for use in games of Warcry. Having been shaped into bestial new bodies, these Ossiarch Bonereapers are desperate to fight and earn forgiveness from Nagash.

These miniatures can also be used as part of an Ossiarch Bonereapers army in games of Warhammer Age of Sigmar, using free rules available to download on the Warhammer Community website.

This set contains 8 plastic miniatures:

- 1x Kavalos Centari
- 3x Teratic Prowlers
- 2x Aviarch Harpies
- 2x Morteck Cykloptians, armed with either a dread glaive or nadirite bident
